

Project Proposal

(POTHoles ROAD IMPROVEMENT)

11-02

INTRODUCTION

People often disregard the small problem especially with the thing that they daily face. In this case, we proudly to introduce about the pothole-road problem in Thailand. Pothole-road rooted from various factors i.e. Overweight transportation that ruined the road, unconscious thoughts, corruption etc . The roots once specifically with the governments economics that suffer from the insufficient money for a pothole-road investment. These problem costs variously to us whether in a role of pedestrian, driver, etc. Dangerous events literally occur there. The rates of mortality, accidents, destruction and more might increase and affects to our economics as well if we look forward through it. As mentioned above, therefore, we decide to do participant as a donation foundation for a pothole-road. Which will be discussed below.

Current Conditions

- Pothole Road
 - Dangerous Events
 - A. Accident
 - B. Mortality

MATHEMATICS PROJECTS

C. Destruction

D. etc.

MAP AREA

Objective

Assuming that the asset of government is not enough, so we will campaign for the money donation of citizen and give it to the government to improve potholes around Bangkok

Goals

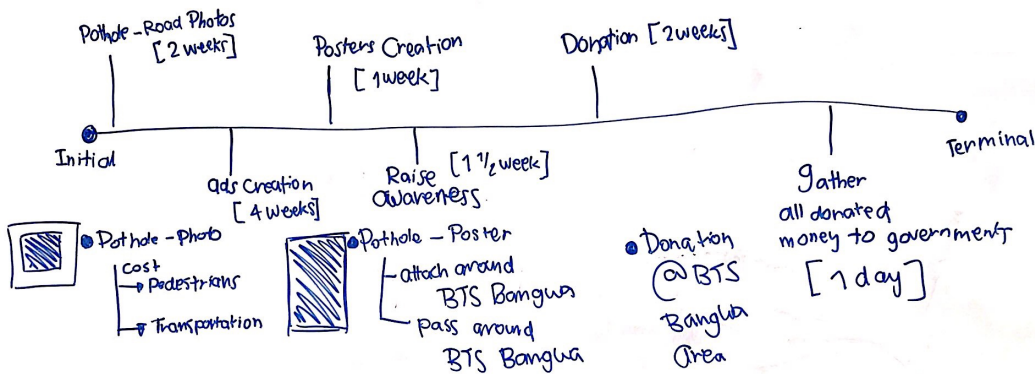

To participants in potholes roads improvement in Bangkok nearby the BTS Bangwa to Seacon Bangkok area. For better livelihood to everyone while we're on the road as a pedestrian, driver, etc. Either the rates of accidents, mobility and mortality will be decrease as a byproduct.

Solution

After we gathered all necessary stuff whether the potholes photos, potholes location, etc. we will do a donation for the potholes improvement at BTS Bangwa. But before that we will paste posters up around that area that advertise our campaign.

PROJECT OUTLINE

Timeline

Objectives ⇒ Pothole-Donation

- Governments w' Insufficient Money for Pothole-Road Improvement
